

Twinning Project AQ Improvement Component 1, Recommendations

Final Meeting

Ohrid May 13, 2008

Alec Estlander, SYKE

Twinning project - Air Quality Improvement

An EU-funded project managed by the European Agency for Reconstruction

Findings

- There has been a very good and open co-operation (MS-MEPP and between MS:s)
- The work method with frequent meetings in MEPP was fruitful, productive
- The results are being further processed
- Stakeholder participation could have been more intense
- MEPP needs a sustainable personnel policy

Recommendations

- All results be fully adopted (process to end)
- Stakeholder events to be held
- National Plans and programs need work
- List of further legislative work to be carried out
- Personnel for further legislative work to be ensured (and for implementation)
- Information campaign (AQ) to be launched
