

**Call for expression of interest for the design, construction and concession of HPP Cebren and HPP Galiste, Crna River - QUESTIONS
(submitted in written form) AND ANSWERS from the meeting held in Skopje - ELEM Head office on 10.06.2016**

	Question	Answer	Clarification
1	In are we present a great proposal accepted by you, what is the benefit for us.	Having in mind that best solution will be included in the Tender Documents and if your solution will be accepted then you will be able to present the best offer for Project realization.	
2	Following the feasibility study in the data room, the bidders have to built on that study as a base, or submit something different?	The existing Feasibility Study (Exergia 2003) is a base and input for preparation of the techno-economic proposals by the Interested companies. The proposals from the Interested companies can be different from the variants given in the existing FS.	
3	Taking in to account the limited time for the submission of the tender phase 1, should the submitted proposal have to be well documented.	Submitted proposals shall be on the level of Conceptual design and clearly define the parameters of the Project.	
4	As for now, there is no access road to Galiste dam site, is it possible for the government to provide the road and the transmission line	These requirements shall be defined in your proposal so, if accepted, they will be included in the Tender Documents.	
5	In construction period, before exploitation of borrow areas, any licensees need to be applied? How long it will take?	Time duration for this kind of procedure is define according to Macedonian legislative. However in the Tender Documents Government will define the conditions and the procedure for obtaining the licenses. Anyhow the Government will make best efforts to alleviate this process.	

6	Will PPA and sovereign guarantee provided for this project?	This shall be concession/PPP project and no PPA orguarantees by the Government are planed. However if you have such requirements they shall be defined in your proposal so, if accepted, they will be included in the Tender Documents.	
---	---	---	--

Note: More clarifications related to Tender Phase 1, you can find in the questions and answers sent to all companies in April 2016.
