WORKING EXPERIANCE

March 2008-current, MINISTRY OF ENVIRONMENT AND PHYSICAL PLANNING

Minister advisor, March 2023-current

State Counsellor on Climate Change Ministry of Environment and Physical Planning, www.moepp.gov.mk, www.klimatskipromeni.mk,

Vision and mission: Towards low carbon development and resilient societies with wise policies informed by science in a transparent and inclusive manner

She is a main national leading vehicle in setting new development paradigm shift leading to the lower carbon and more resilient society.

TASKS

NATIONAL FOCAL POINT

- UNFCCC Focal point for the Republic of North Macedonia
- Coordinator of the Group 27 on Environment and Climate
- National coordinator on NDC (nationally determined contribution) partnership
- National coordinator on EU4 Green roject

CONTACT PERSON

- Member of the Energy and Climate Committee under the Energy Community Secretariat

MANGEMENT/ COORDINATION

of the process of developing legislative, strategic and planning documents at the national level in the

- National coordinator for the preparation of the Long-term strategy on Climate Action, supported by the EU
- National coordinator on the preparation of the First and updated Nationally determined contribution under the Paris agreement
- Coordinator of the decarbonization pillar in the National energy and Climate Plan

field of climate action

- National Coordinator for preparation of Second, Third and Four National Communications on Climate Change, following UNFCCC guide
- National coordinator for preparation of the First, Second and Third biannual update report on climate change, following UNFCCC guide
- National Coordinator on preparation on National Strategy on Clean Development Mechanism under the Kyoto Protocol, UNDP regional
- Voluntary National Review, responsible person on SDG13, GIZ, (2020)
- Contributor to the Chapter on Climate Change under the 3 EPR, UN ECE (2019)
- Strengthening Responses to Security Risks from Climate Change in South-Eastern Europe, Eastern Europe, the South Caucasus and Central Asia, OSCE (2020)
- Competitiveness Outlook 2021: Environmental Policy Dimension, OECD (2020)
- National Coordinator on Project "Mitigation on Climate Change through energy efficiency in building sector" UNDP Skopje
- National Coordinator on "Socio-Economic assessment on Climate Change", UNDP

COOPERATION with international organisation
GIZ, UNECE, OSCE, OECD, UNDP

REGIONAL COOPERATION
COOPERATION WITH THE EU

LOCSEE (Low Carbon South East Europe) project, 2012

The project is led by the European Academy of Bolzano/Accademia Europea Bolzano (EURAC).

The LOCSEE (Low Carbon South East Europe) project aims to build the capacities of public and other institutions dealing with climate change, and to strengthen the involvement of key stakeholders in policy development across the SEE region.

ECRAN (Environment and Climate Regional Accession Network), financed by EU and managed by the European Commission, 2016, financed by EU and managed by the European Commission assists the beneficiaries in exchange of information and experience related to preparation for accession.

ECRAN is strengthening regional cooperation between the EU candidate countries and potential candidates in the fields of environment and climate action and assists their progress in the transposition and implementation of the EU environmental and climate acquis.

TRATOLOW-(Transition towards low emissions and climate-resilient economy in the Western Balkans and Turkey), financed by EU and managed by the European Commission. Overall objective is to contribute to climate change mitigation and adaptation and the development towards a resource-efficient, low emissions and climate-resilient economy.

With the help of a European consortium, the European Commission is supporting the countries of the Western Balkans and Turkey in the areas of climate protection and adaptation to climate change

EU4GREEN-By 2026, experts from the Environment Agency Austria are supporting the Western Balkan countries on behalf of the European Commission in addressing the climate crisis and advancing the EU accession process. The basis is the Green Agenda for the Western Balkans. It creates the conditions for reducing pollutants in the environment, preserving biodiversity, promoting circular economy and making agriculture more sustainable. The EU4Green project team is developing concrete plans for its implementation together with the authorities in the partner

countries and national representatives from industry and civil society. In addition, monitoring and reporting are being expanded to protect people and the environment. The financial resources for the new project come from the European Commission. On the national level, it is co-financed by ADA (Austrian Development Agency).

**BILATERAL
COOPERATION**

(Italian government,
Norwegian
government)

- National Contact person for more than 15 potential CDM projects under bilateral cooperation with the Italian Ministry on Environment, Land and Sea
- National Coordinator on implementation of a "Capacity building project on EU-ETS" in the Republic of Macedonia, bilateral project, supported by Norwegian MFA

**CLIMATE ACTION
MAINSTREAMING/S
USTAINABLE
DEVELOPMENT**

- Coordinator on the Project "Building local capacities for climate change project development", bilateral project, supported by Norwegian MFA
- Given independent proposals, as well as opinions on proposals submitted by the Government and by the Assembly on the most complex and most responsible issues requiring particular expertise, comprehensiveness, detail and experience, especially in the segment of climate and other related environmental aspects.
- Mainstreamed climate issues into transport, health, agriculture, nature, biodiversity, water, spatial planning and waste policies.
- Proposed guideline on Integration of climate related policies into EIA and SEA procedures.
- Engaged with the youth in promoting climate change activities at national and local level.
- Collaborated with the Hubs at local level for mainstreaming climate change local actions.

**COMMUNICATION
OUTREACH**

- Collaborated in development of 6 Local Agendas on Climate Change
- Mainstreaming gender and climate action aspects
- HOW THE NATIONAL RESPONSE TO THE PARIS AGREEMENT CAN BECOME PART OF THE DEVELOPMENT POLICY OF THE STATE?

January 1992- January1996

**FACULTY OF TECHNOLOGY AND METALLURGY,
University St Cyril and Methodius**

Young researcher under the Program for young researchers financed by Ministry of Education and Sciences

- Assistant to three scientific-research projects
- Involved in conducting a practical work of students of two subjects

January 2007-January 2009

**SEEU (SOUTH-EAST EUROPEAN UNIVERSITY of
TETOVO), Institute for Environment and Health**

Assistant-professor on Environment and Energy subject. The subject deals with the relations between environment-sustainable development-climate changes. It analyses EU trends, makes gap analysis with Macedonian relevant laws and sub-laws, it assesses best-suitable sectors, technologies and methods for climate change mitigation

January 2022-June 2022, February-June 2023

**SEEU (SOUTH-EAST EUROPEAN UNIVERSITY of
TETOVO), Faculty of Business and economics**

Teaching professor on 2 subjects:
Environment/Climate Change and sustainable development-sustainability assessment tools
Environment/Climate Change and sustainable development-introduction, international, European and national context

EDUCATION AND TRAINING

2009-2013

PhD Technical Sciences, Faculty of Mechanical Engineering, University St. Cyril and Methodius, Skopje

Thesis was on development of mathematical model for integrated assessment on new policy (such as integrated product policy), which can provide perspectives on impact of actions taken now on short, medium and long term.

1992-1996

M.Sc. Technical Sciences, Faculty of Technology and Metallurgy University St. Cyril and Methodius, Skopje

Master study was on new materials. Thesis was on new materials based on electro-conducting polymers

1987-1992 B.Sc. Technical Sciences, Faculty of Technology and Metallurgy University St. Cyril and Methodius, Skopje
Organic Technology

September 2012 E-learning course on Negotiating Climate Change, UNITAR

November 2012

December 2020

BSAFE course completed
